

MOTTURA

VINI DEL SALENTO

==== Since 1927 ====

*“The richness of a land also
lies in the strength and passion
of the man who cultivate”*

TRADITION AND PASSION

One family, one history

- ◆ The winery has been established in 1927 by great grand father Pasquale.
- ◆ Today 4 generations and nearly a century of history in the wine field are represented.
- ◆ Mottura is one of the largest family owned wine company in Puglia.
- ◆ Today Antonio Mottura and his niece Barbara are at the helm of the winery.

Unforgettable tradition

A unique area of its kind - the **Salento** - and a style: Mottura's style has always combined tradition, expertise and innovation; since our origins the purpose has been to promote authentic and distinctive indigenous grapes like **Primitivo**, **Negroamaro**, **Susumaniello**, **Fiano** and **Aleatico** preserving wine growing tradition.

PRODUCTION QUALITY AND SUSTAINABILITY

A green heart in the south of Italy

Vineyards are located in the most suitable areas for our native grapes, cultivated using practice in line with local tradition so that each wine is a unique expression of its territory, having its own personality, history and identity.

Alongside the owned vineyards we have another hundred hectares rented and managed directly by the company.

Located in the towns of **Campi Salentina**, **Salice Salentino** and **Cellino San Marco**, **Lizzano** and **Torricella**.

The cellars

The historical headquarters of the Mottura company is located in **Tuglie (Apulia)**. The historical spaces have been renovated and adapted to current production needs. Here you will find the production and **winemaking centre**, the bottling, the warehouse and the **barrel cellar** where the company's most important wines are refined.

In **Lizzano**, in the heart of the DOC Primitivo di Manduria, there is the second winemaking center dedicated to Primitivo.

The careful production and management policies of the Mottura vineyards have led to the achievement of important certifications such as SQNPI, CSQA, IFS and BIOS.

Our production

The portfolio of Mottura's wines can be ideally divided into 4 lines:

Mottura

- ◆ Espalier vineyards, 10/15 years old
- ◆ Mechanical harvest

Villa Mottura

- ◆ Espalier vineyards, 15/20 years old
- ◆ Hand harvest

Le Pitre and Selezione

- ◆ 60-year-old bush trained vineyards.
- ◆ White soils, red soils.
- ◆ Hand harvest

Line Mottura /Off trade

Line Villa Mottura /On trade

Line Le Pitre /On trade

Authentic wines with a strong personality.

These wines are produced from **60-year-old** bush trained vineyards with a natural low production which allows a greater concentration of aromas and flavors in the grapes.

The harvest is carried out manually with a careful **selection of the grapes** to create, during the winemaking process, a product with intact organoleptic richness and of the highest quality.

Subsequently, in the cellar, the refinement process takes place in French oak barriques where for **12 months** the wine has the opportunity to fully express itself and give us the emotions of its journey through the history of a land that we love so much.

Line Selezione /On trade

Stilio and Stilio limited edition

Born from selected low-yield vineyards in Manduria, with some grapes naturally sundried on the vine (losing 20–30% water), Stilio concentrates aromas before harvest. Its name recalls the ancient Salento Taranta dance. The label shows a spider with a diadem on black, evoking the taranta's symbolic bite music, color and a cathartic energy reflected in the wine's taste.

Stilio Limited Edition, from Mottura Vini's Selection line, is a Primitivo di Manduria DOC. Embossed in pure gold directly on glass, it replaces the paper label with a regal finish. With longer maceration, delestage and one year ageing, it offers higher alcohol and more defined character, a limited jewel rooted in Salento's history and culture.

Rosone

Grown in non-irrigated vineyards on poor, calcareous soils rich in iron oxides, using the ancient "alberello" system, which naturally produces a low yield but a high concentration and organoleptic complexity.

The name and the image on the label refer to the icon of the "Rosone", a round decorative window found on the facades of Romanesque, Gothic and Baroque churches.

They are an explosion of architectural decoration, rich in symbols that tell of a reality full of facets.

The symbolic meaning of the "Rosone" is closely linked to the circle, which, as an "infinite line" without beginning or end, is a symbol of God and eternity.

DISTRIBUTION AND AWARDS

Our distribution

In Italy and abroad more than 1,600,000 bottles are sold each year:

Mottura Line

- ◆ Off trade
- ◆ Trust and familiarity segment

Villa Mottura Line

- ◆ On trade
- ◆ Ho.re.ca - Discovery and specialty segment

Le Pitre and Selezioni Line

- ◆ On trade
- ◆ Ho.re.ca - Superpremium wine segment

Our **Primitivo di Manduria Doc** is one of the most distributed Primitivo in Italy.
Data by Circana – February 2025

A matter of numbers

Mottura Vini del Salento is one of the top Apulian wine producers, with nearly a **20% market share** in the modern trade channel. It ranks among the top 40 most distributed wine producers nationwide. The company holds the "Best selling" price on the market. Despite the negative market trend, we have been maintaining our market and leading brand positions for years.
